Features we have working:
- **Log in (Ayazhan Bauyrzhankyzy)**
    - Only users in the database can login
    - Error messages are displayed for incorrect username and password
    - Cannot enter website if not logged in
- **Sign up (Ayazhan Bauyrzhankyzy)**
    - Email and username are unique and if they exists in the database, users can't sign up
        - Appropriate error messages display
    - Must specify whether a user is a student or instructor
        - Appropriate error message displays if this entry is incorrect
    - Redirects to login page after signing up
        - Can login using the newly created account
    - New Users data is inserted into the database using SQL
        - Table users update for all new users
        - Table studentMarks updates for new student users with their username and grades set to None
- **Logout (Ayazhan Bauyrzhankyzy)**
    - Logs the user out by ending their session
    - Cannot access the website if user doesn't log back in
- **Students (Yihao Song)**
    - Two new links in header: anonymous feedback, marks
    - Able to give anonymous feedback to a certain instructor, answering 4 questions and given to the instructor anonymously
    - Can see only their marks and no other students' marks
    - Can request a remark on a certain grade and can provide an explanation why
- **Instructors (Angela Ding)**
    - Three new links in header: anonymous feedback, marks, remark requests
    - Able to see all anonymous feedback given to that particular instructor
        - Not able to see other instructors' feedback
    - Able to see all of the students' marks
    - Can change particular students' marks, specified by which assignment
    - Can see all remark requests given by students, sorted by assignments and can view their explanation for the request

Features we don't have working:
We think we have all the required features working.

Percentage of work done by each member:
Ayazhan Bauyrzhankyzy: 1/3
Yihao Song: 1/3
Angela Ding: 1/3
